Welcome Message

Dear Colleagues,

It is our immense pleasure to welcome you all to the **IAPP Mid-Term CME**. On behalf of the **Indian Association of Private Psychiatry (IAPP)**, we extend our heartfelt best wishes to the organizing team and express our confidence in their dedicated efforts to make this event a resounding success.

IAPP has always been committed to advancing psychiatric knowledge and addressing the unique challenges faced by psychiatrists in private practice. This **CME**, centered around the theme "**Preventing Suicide Across Populations: Challenges and Solutions**," is particularly relevant in today's times. With suicide prevention being a global and national priority, it is imperative to analyze statistical trends, recognize population-specific challenges, and develop actionable strategies to mitigate risk.

The **scientific committee** has meticulously curated an enriching academic program covering a broad spectrum of topics, including the evolution of suicide theories, shifting narratives in suicidology, the role of mental illnesses in suicide, child and adolescent suicide, geriatric suicide, suicide in the LGBTQ+ community, and comprehensive management strategies. The program will feature **guest lectures, symposia, debates, case discussions, and free paper presentations**, ensuring a dynamic and insightful learning experience.

Private practitioners play a crucial role in **early identification, timely intervention, and continuous support** for individuals at risk. This CME serves as an excellent platform for **collaborative learning, meaningful discussions, and exchange of insights** to enhance our collective expertise in suicide prevention.

We look forward to an engaging, thought-provoking, and impactful **CME**, and we wish all attendees a truly enlightening and inspiring experience.

Message from Organizing Team

It is with great joy and purpose that we welcome you to the IAPP Mid-Term CME 2025, scheduled for 26th–27th April 2025 in the culturally rich and scenic city of Bhopal.

This CME is more than an academic gathering — it is a heartfelt response to a growing public health challenge. Madhya Pradesh continues to witness an alarming rise in suicides, making it clear that our work as mental health professionals is more urgent than ever. Through this platform, we aim to unite voices, share experiences, and strengthen our collective efforts to bring about real, lasting change.

Our scientific program is designed to be dynamic and impactful, featuring distinguished speakers, evidence-based insights, and interactive formats that promise both learning and reflection. Highlights include the Wall of Case Papers, Poster Presentations, and a special Walkathon for Mental Health Awareness — a symbolic step towards breaking stigma and starting conversations beyond the clinic walls.

Bhopal, known as the City of Lakes, offers the perfect backdrop — serene, welcoming, and brimming with potential. We are proud to host this CME here, where tradition meets innovation, and where our commitment to mental well-being can shine brightly.

We thank you for being part of this journey and look forward to meaningful dialogue, renewed inspiration, and a shared vision for better mental health for all.
